AGENDA ITEM 2

WORK SESSION ITEM

TO: Mayor and City Council

FROM: Director of Public Works

SUBJECT: Water Main Replacement Project at Laurel Avenue, Sunset Boulevard, Western Boulevard, Westfield Avenue, Russell Way, "C" Street, Sixth Street, and Ward Street – Award of Construction Contract

RECOMMENDATION:

It is recommended that the City Council adopt the attached resolution that awards the construction contract for the water main replacement project to Stoloski & Gonzalez, Inc., in the amount of \$740,862.

BACKGROUND:

As part of the City's continuing program to maintain and upgrade its water system, staff has identified and selected a group of undersized or deteriorated and aging water mains for replacement. This year, approximately 6,500 feet of 70-year-old water mains, along with lateral connection pipes and fire hydrants at Laurel Avenue, Sunset Boulevard, Western Boulevard, Westfield Avenue, Russell Way, "C" Street, Sixth Street, and Ward Street were selected for replacement. This project will also upgrade the existing water system to provide adequate hydraulic capacity for desired fire flow in this northeastern region of the City.

On June 25, 2002, the City Council approved the plans and specifications for the subject project and called for bids to be received on July 30, 2002. Eleven bids were received ranging from \$740,862 to \$1,095,980. The engineer's estimate for the project was \$850,000. Seven bids were higher and four bids were lower than the engineer's estimate. The low bid submitted by Stoloski & Gonzalez, Inc., of Half Moon Bay, in the amount of \$740,862 is approximately 12.8 percent below the engineer's estimate.

The combined DBE and WBE goal established for this project was 8.0 percent. The low bidder included 9.5 percent DBE and WBE participation. The DBE/WBE subcontracting documentation submitted by the low bidder indicates that the low bidder has met the City's requirements.

Notices will be provided to residents, property owners, and business owners who may be affected by the construction, to inform them of the nature and purpose of the work, potential impacts, and a City contact for additional information. A second notice will be provided when the contractor's work schedule is defined and specific dates for street closures can be established.

Environmental Review:

The pipeline project is categorically exempt from environmental review under the California Environmental Quality Act (CEQA). The Public Resource states that CEQA does not apply to any project of less than one mile in length within a public street or highway or any other public right-of-way for the installation of a new pipeline, or the maintenance, repair, restoration, reconditioning, replacement, removal, or demolition of an existing pipeline of any length.

Project Cost:

Design & Survey	\$ 100,000
Construction Cost	740,862
Construction Material Supply (By City)	100,000
Inspection & Administration	50,000
Total:	<u>\$ 990,862</u>

Funding:

A total of \$1,252,000 has been appropriated for this water main replacement project in the Water System Replacement Fund in the approved 2002-03 Capital Improvement Program.

Schedule:

The following tentative project schedule has been developed for this package:

Award Construction Contract	September 10, 2002
Begin Construction	October 1, 2002
Construction Completion	February 28, 2003

Prepared by:

Alex Ameri, Deputy Director of Public Works
